(Renewed 10-30-17)

Dear Ms. Sue Reitzig;

Thank you for allowing Malack Electric to again submit a proposal to be included as a Preferred Vendor in the Regency Cooperative. Our involvement with the Coop has been very pleasant.

Malack Electric is a full service electrical contracting company offering electrical expertise in consultation, design, installation, and troubleshooting. We are licensed and insured. Our work includes refinishing basements, bathrooms, and kitchens; installing ceiling fans; light lifts; deck lighting; landscape lighting; spas and hot tubs; installing and mounting flat screen televisions; phones; and computer lines.

We are an authorized Generac Home Standby Generator Dealer. We purchase, install, and maintain top quality home generators from Guardian/Generac.

Our regular advertised hourly rate is \$80.00. To the members of the Regency Cooperative we offer a 10% discount which reduces the hourly rate to \$72.50. We also have a trip charge of \$32.50.

If you need additional information please call or email me any time.

Sincerely,

Lori
