Thank you for inviting [Windows on Washington](#) to apply to become a Regency Co-op approved vendor. For more than a decade, WoW has provided homeowners in the DC area with the peace of mind that comes with providing the best products, high quality-professional installation, and a no nonsense, transparent pricing process that eliminates the "Used-Car Sales" nightmare that most contractors put homeowners through. Our Hassle Free process eliminates much of the unnecessary stress that can make the Home Improvement process with many providers exponentially painful. Our exceptional [reviews](#) over the past 10 years show that the WoW Process has provided thousands of homeowners with extraordinary service!

We are a full service Exterior Remodeling company specializing in:

- Windows
- Doors
- Roofing (Both Asphalt and metal)
- Siding
- Gutters

I am attaching a copy of our Insurance as requested.

Although all of our products are custom made to fit the individual home and therefore impossible to price accurately without an in-home inspection, an automatic 10% discount for Regency Co-op Homeowners would apply **(Above and beyond any other specials we might be running).**

As an example, A custom made Okna 500dx double hung window with colonial grids in a standard (under 101 United Inches) size is normally \$650 installed. That price is dependent upon installation specifics that are unique to each home and ALWAYS discussed with the homeowner. Regency Coop owners would be entitled to 10% off that pricing BEFORE any specials Windows on Washington is running.

[Okna 500dx Energy Efficiency](#) (We only carry the HeatSeal Deluxe Package)
