AWS is a professional wildlife removal and repair service that is licensed by the Virginia Department of Game and Inland Fisheries. National Wildlife Control Operators Association. We offer a full range of services for all wildlife removal and repair needs. Honesty is our number one approach to each inspection given. We take pride in providing total satisfaction, and no job is complete until it has been customer approved. We have an understanding of the importance of, and have respect for, the balance between human and nature. Our top priorities for our customers are to humanely vacate any intruding wildlife, and offer preventative repairs to protect your home while providing reasonable prices on quality materials and outstanding workmanship.

A free inspection with an itemized estimate will be provided, and all workmanship comes with a warranty. For our Regency Cooperative members, AWS will be providing a 15% discount on all contracted services. This agreement is effective immediately, and for the lifetime of the listing.
